Notes to ACCON-AGLink developer licenses

The module ACCON-AGLink S7-TCP/IP TIA additionally requires the module ACCON-AGLink SymbolikPro TIA.

The module ACCON-AGLink S7-RedConn requires for communication at least one other ACCON-AGLink communication module.

The module ACCON-AGLink SINUMERIK AddOn additionally requires at least one ACCON-AGLink communication module.

For the modules ACCON-AGLink S7-TCP/IP TIA and ACCON-AGLink S7-SymbolikPro TIA a maintenance contract is mandatory.

ACCON-AGLink is also available for special Windows CE SDKs, various Linux Embedded devices, VxWorks, Solaris and OS9000. For reasons of clarity, these operating systems are not listed in the price list. If you are interested in one of these operating systems or on a further operating system not listed here or require modules which are not listed for your desired operating system, please contact us directly. We are happy to help.
